

# About us

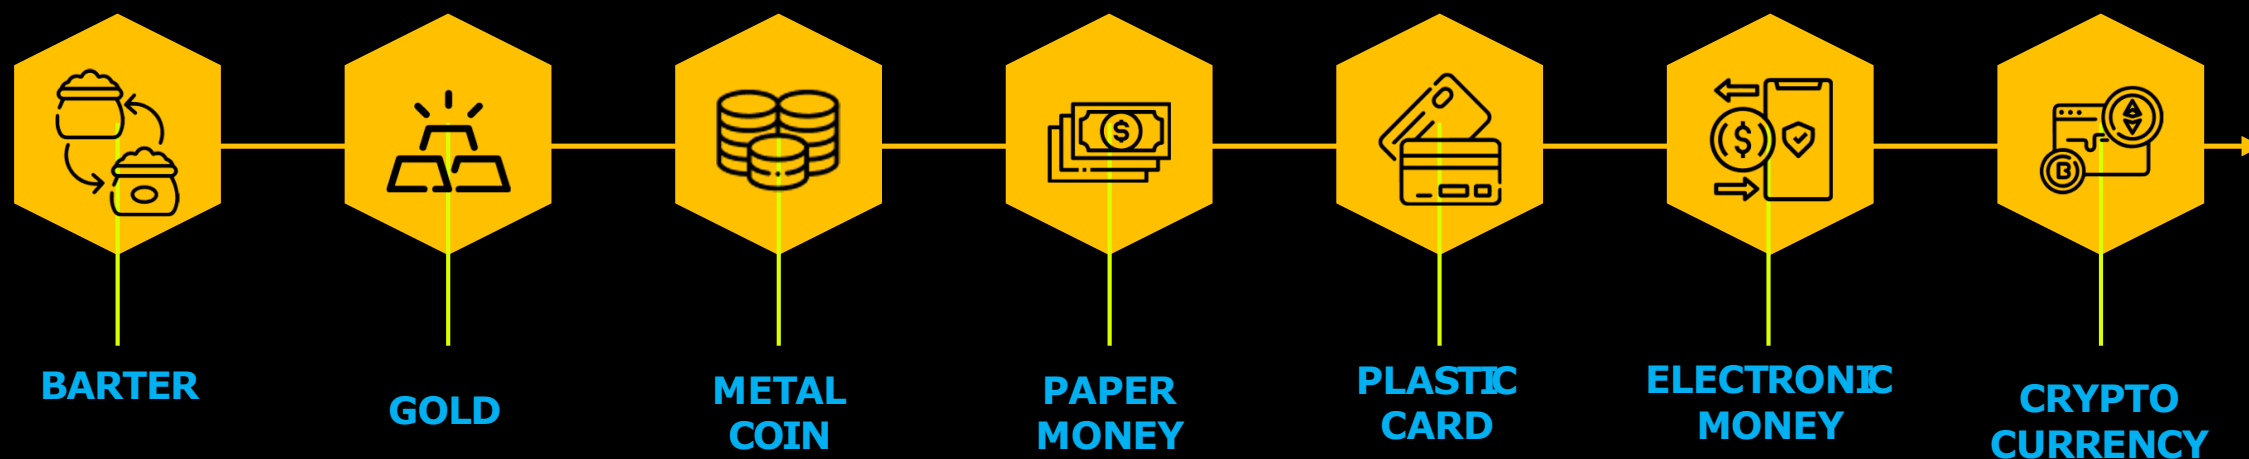

Crypto trading is the process of speculating on cryptocurrency prices, and buying and selling them accordingly. Crypto traders typically use crypto exchanges such as eToro and Uphold. These are marketplaces where traders meet to track prices and make transactions.

## What is a crypto trade?

Cryptocurrency trading involves speculating on price movements via a CFD trading account, or buying and selling the underlying coins via an exchange. Here you'll find more information about cryptocurrency trading, how it works and what moves the markets.
